Type here codes between Private Sub CommandButton1_Click() and End Sub

- **Private Sub CommandButton1_Click()**

Dim d6 As Integer

Dim g6 As Integer

Dim result As Integer

d6 = Range("d6").Value

g6 = Range("g6").Value

result = d6 + g6

Range("d9").Value = result

End Sub

- **Private Sub CommandButton2_Click()**

Dim d6 As Integer

Dim g6 As Integer

Dim result As Integer

d6 = Range("d6").Value

g6 = Range("g6").Value

result = d6 - g6

Range("d9").Value = result

End Sub

- **Private Sub CommandButton3_Click()**

Dim d6 As Integer

Dim g6 As Integer

Dim result As Integer

d6 = Range("d6").Value

g6 = Range("g6").Value

result = d6 * g6

Range("d9").Value = result

End Sub

- **Private Sub CommandButton4_Click()**

Dim d6 As Integer

Dim g6 As Integer

Dim result As Double

d6 = Range("d6").Value

g6 = Range("g6").Value

result = d6 / g6

Range("d9").Value = result

End Sub

- **Private Sub CommandButton5_Click()**

MsgBox "HELLO FRIENDS"

End Sub

- **Private Sub CommandButton6_Click()**

Range("d6").ClearContents

Range("g6").ClearContents

Range("d9:g11").ClearContents

End Sub
